Creation: Days Five

09.13.2020

God Made the Fish and Birds

Join us for this week's Lesson with Miss Nicole on our new [Facebook Page](#). We will be using this format instead of our YouTube videos from before.

Laying a Foundation

Read Genesis 1:1 to 2:3 to prepare for today's lesson.

Creation is a truth that the world is against. Answers in Genesis has an [amazing website for kids](#) that explains the science behind Biblical creation. Take some time after this week's lesson to explore with your kids what this website has to offer. Read Genesis 1:1 to 2:3 to prepare for today's lesson.

My Creation Book

We are following along with the Creation Kit that you picked up from the church. If you didn't get a chance to come last week, please stop by any time during the work week and we will get one to you! There are kits at the Main Welcome Desk outside of the Worship Center. Each week, the children will complete an art page for each Day of Creation. The pages will make up a book for them to keep. We have also included a fun tangible item to help them remember what they learned during that week's lesson.

Read the Beginner's Bible account of Genesis 1 on pages 7-13. Days 5 is on page 12..

Creation Book Day 5

Have your child color water at the bottom of the page and at the top color clouds and a blue sky. Then have them put the stickers of the birds and the fish in the sea and the water.

Talk

Use these questions to help you review the story with your child:

- Who created the world?
- What did God create on days 1 and 2? (Light, Darkness, Sky, Water)
- What did God create on days 3 and 4?? (Dry Land, Seas, Sun, Moon, Stars and Planets)
- What did God create in today's lesson, on day 5? (fish and birds)
- What did God say after each day? (It was good.)

Pray About What You Have Learned

Thank you, God, for Your creation. You are amazing, and your beauty in what you have made is everywhere we look. Thank you for each bird that we see in our trees and for the fish that we see when we visit the beach. Thank you for the way every single one is completely different! Help us to share what we have learned with others this week! In Your name I pray, Amen
